## ABOUT ME

My name is Jasson Levid Tejada Martínez I am currently pursuing a degree in Systems Engineering and Computer Science, with only three academic periods remaining before completion. I am a 20-year-old from the Dominican Republic with a strong desire to move forward in life. I hope to secure an opportunity that allows me to grow professionally in the technology field, surrounded by knowledgeable people from whom I can acquire more knowledge. I am eager to contribute my effort and dedication to any person or team I work with.

## EDUCATION

**IT Technician | Colegio Nuestra Señora del Sagrado Corazón**
2018 - 2020

**Ingeniería en Sistemas y Computación | Universidad Católica Nordestana**
2021 – 2025 (EXPECTED)

## SKILLS

- Management in SQL and relational databases.
- Management in .NET environment.
- Knowledge in architecture Model View Viewmodel (MVVM)
- Knowledge in architecture Model View Controller (MVC)
- Teamwork.
- Management in Azure.
- Blazor knowledge.
- Kotlin and jetpack compose.
- Git.
- GitHub.
- AzureDevops.
- SCRUM Methodology.
- SOLID principles.

## EXPERIENCE

I have accumulated 3-4 years of experience working in the .NET environment, with C# as my primary language using different architectures and methodologies. One year ago, I acquired proficiency in Blazor and have utilized both Blazor Server and Blazor WebAssembly with .NET 6 and .NET 7.

In the last year, I have developed expertise in API integration, leading various projects. I managed client-side development using Kotlin and Jetpack Compose, complemented by backend implementation in C#. Additionally, I deployed these projects on Azure for hosting the WebService.

I have been working with SQL Server for like 3-4 years too and I have learned a lot, going from the simplest instruction to stored procedures, relational views, etc.
